

# Natural Heartworm Treatment & Prevention Daily Schedule

## Natural Heartworm Treatment & Prevention Daily Schedule

This schedule provides a step-by-step daily protocol for eliminating and preventing heartworm naturally.

Follow it carefully and ensure that your dog receives proper rest, hydration, and nutrition.

### Week 1-2: Parasite Attack Begins

-----

#### Day 1-5:

- Administer Wormwood Tincture: 5 days on, 3 days off
- Give Clove Oil (diluted in coconut oil) once daily
- Provide Black Walnut Hull Tincture: 5 days on, 2 days off
- Support detox with Milk Thistle & Dandelion Root daily
- Add Diatomaceous Earth (DE) to food daily
- Ensure your dog stays hydrated and rested

#### Day 6-8:

- No Wormwood Tincture or Black Walnut Hull (rest period)
- Continue Clove Oil, Milk Thistle, Dandelion Root, and DE

Repeat this cycle for Week 2.

### Week 3-4: Continue Killing Heartworms

-----

#### Day 1-5:

- Same as Weeks 1-2, continue Wormwood, Clove Oil, Black Walnut Hull, and DE
- Introduce Coenzyme Q10 (30 mg per 25 lbs) to support heart function
- Add Turmeric (with coconut oil & black pepper) for anti-inflammatory support

#### Day 6-8:

- Rest from Wormwood and Black Walnut Hull
- Continue all other supplements

Repeat this cycle for Week 4.

### Week 5-6: Detox Boost & Lung Support

-----

#### Day 1-5:

- Continue same supplements from previous weeks
- Introduce Hawthorn Berry Powder (1/4 tsp per 20 lbs) for heart and lung support

Day 6-8:

- Rest from Wormwood and Black Walnut Hull
- Continue Clove Oil, Milk Thistle, Dandelion Root, DE, Coenzyme Q10, Turmeric, and Hawthorn

Repeat this cycle for Week 6.

Week 7-8: Strengthen the Heart & Lungs

-----

Day 1-5:

- Continue same supplements as before
- Add Shungite for EMF protection

Day 6-8:

- Rest from Wormwood and Black Walnut Hull
- Continue all other supplements

Repeat this cycle for Week 8.

Week 9-10: Final Detox & Maintenance

-----

Day 1-5:

- Reduce Wormwood and Clove Oil usage
- Continue Coenzyme Q10, Turmeric, and DE
- Introduce Neem Powder or Garlic (3-4x per week)
- Apply Mosquito Repellent Spritz daily

Day 6-8:

- Rest from Wormwood and Black Walnut Hull
- Continue other supplements as needed

Repeat this cycle for Week 10.

Ongoing Prevention Protocol (Post-Treatment)

-----

- Use Diatomaceous Earth (DE) 1-2x per week
- Provide Neem Powder or Garlic 2-3x per week
- Give Black Walnut Hull Tincture 1x per week
- Administer Hawthorn Berry Powder 1-2x per week
- Apply Mosquito Repellent Spritz daily

Final Notes:

- Strict rest is required for 3-6 months during treatment.
- Do not use Wormwood or Black Walnut Hull on pregnant dogs.
- Continue a raw diet and minimize toxin exposure.

- Repeat heartworm tests every 6 months to ensure continued health.

To thriving beasts and lasting health,
